

# Nürburgring Quiz

This was originally held at the famous Ringers Video Evening in Stockholm. The purpose of that evening was to drink beer watch video and have fun. This quiz should be seen in light of that. Especially when answering question B3.

One point max on each question. On question A2, A4, A8 half points are given for partly correct answers.

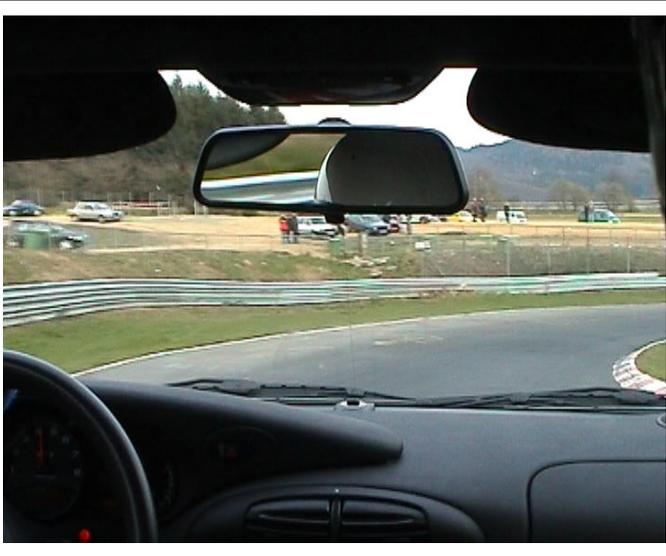

The results from this evening were

- Peeter Pahv            19.5            (A=5.5 B=6 C=5 D=3)

Note: Question A3 was wrongly put (or had the wrong answer) in the original version so maybe some folks should have had one point more than the above. Question is now edited in this version to match the answer.
